

## Important Considerations to Avoid Potential PERSONAL Covid Related Mandate Legal Problems.

Soon there will be countless lawsuits Nationwide at every level (which are already starting) for,  
Constitutional Violations,  
Civil Rights Violations,  
International Law Violations,  
Authoritarian Overreach,  
Information Censorship and Suppression,  
Undo Personal Restrictions & Demands,  
Willful Fraud, Lies, and Deception, and more.

Please use caution to make sure you do not get involved with being on the WRONG SIDE of current events and mass mainstream media hysteria or disinformation with your personal involvement by supporting any activities which can come back to penalize you personally at great cost.

The Constitution protecting our Personal Rights HAS NOT been Terminated or Suspended. **No member of the Military, Law Enforcement, or Civilian is required to follow any Unlawful Order.** Be careful with politicians and bureaucrats who are temporarily High and Drunk with power making unlawful demands as it is your responsibility to uphold the Constitutional and Protections afforded us in this Nation at any station you hold. This includes; The Rights to Life, Liberty and the pursuit of Happiness, Freedom of Speech, Freedom of Choice, Informed Consent, and Basic Human Rights. The excuse "I was just following orders" can still get you Penalized Just as Ignorance of the Law is No Excuse either.

It is rapidly becoming "Public Knowledge" now through tens of thousands of sources Globally by highly accredited professionals that much of the World Health Organization information is false and Governmental over-reach reactions are major violations to Constitutional Rights and Civil Liberties.

There IS massive highly credible and well documented contradictive scientific information to what the World Health Organization is and has said, with much of it pointing to Fake and False information and Illegal activities. The United States is pulling out of WHO as a main financial supporter and China, Bill Gates and Dr. Fauci are being implicated in massive Medical corruption and personal involvement with weaponized viral technologies with huge personal financial gains involved. Still, this does not absolve YOU for any personal violations against the rights of others due to those activities.

It is also known, no mask less than a level N95 mask will stop any virus from passing through it as viruses are near DNA sized (Human DNA 2.5nm / Virus 40-70nm) measured in Billions (nm) and masks below that are measure in millions (um) or microns only capable of catching small particles like molds, fungus, pollen, dust, blood cells, bacteria (Mycobacterium size 2-4um), etc. They will NOT protect you from ANY virus pass through, and may cause you great harm by needlessly wearing from incubating harmful particles trapped between the mask and your respiratory system. Also, much documentation shows this pandemic is NOT an airborne but a

hand to mouth contingent. Do your own homework, and make your own personal health decisions to avoid potentially devastating choices.

It has also become public knowledge that to date, despite the ominous looking reddish orange Covid virus graphic image displayed by Global Corporate Mainstream Media everywhere constantly, NO Covid-19 virus has been actually isolated, or seen. Much documentation proves this pandemic really surrounds the yearly common flu and grossly misdiagnosed causes of death attributed that are highly inflated and inaccurate. There is plenty of documentation regarding viruses, retroviruses, and vaccines by highly accredited professionals being censored which are contrary to WHO and political advisors with personal agendas and/or limited or misinformation. The recent blockbuster book; *Plague of Corruption: Restoring Faith in the Promise of Science* / Dr. Judy Mikovits (Top U.S. Virologist researcher who has worked with all viruses and vaccines) clearly documents this and more. Many hours of her interviews are currently available from major non-mainstream independent radio shows, and medical round table discussions you can search out or see on YouTube. Keep in mind many shows have been banned and taken down by YouTube, Facebook, Twitter, Google, etc. if not going along with the mainstream agenda denying Free Speech and Choice.

The World Health Organization is not a part of, or in charge of the united states, or you, which must be kept in perspective to it's directives. The Politicians in Sweden have taken an opposite approach the U.S. Politicians in health matters and are obtaining outstanding results. Instead of tight lockdowns, Swedish officials have encouraged citizens to use common sense while having a close to normal lifestyle and businesses running instead of destroying their economy and personal lives and freedoms.

In Illinois, the morbidly obese Governor Pritzker who seems to have difficulty knowing personal healthy choices, and who is not a physician, has taken it upon himself to mandate his opinions onto the general public with a decree all should wear a mask in public or close quarters totally contrary to advise of many Top Virologist and other prominent physicians while further destroying the economy of Illinois which was near bankruptcy prior to it's shutdown which it now continues with. It again is obvious Pritzker type authoritarians values are questionable at best and extremely destructive at worst with high disregard for contrary qualified advice and personal freedoms of others. In health, it is common practice to seek out a second, third or more professional opinions based on verified peer reviewed double blind scientific research before choosing a course of action. And imposing theoretical computer models to take the place of hands on proven results and advice by real non-corruptible researchers, scientists, and physicians seem ludicrous and counterproductive.

The bottom line is that it is YOUR responsibility to seek out all information available and make educated comparative choices for your own health but you have no right to intrude on the rights of others on health decisions they consciously make for their own wellbeing with comprehensive research from highly credible sources you may have not done fully yourself. Nor, do you have the right to interfere with the rights of others in ways which can bring unwelcomed consequences when legally challenged which may prove costly to you after the dust has settled during all this madness also contributing to our personal economic meltdowns. The right to self-defense goes well beyond physical attract including health matters and the right to work and financial survival for self, family, country.

Below are some further points of reference you may want to investigate for yourself.
