

# **THIS IS YOUR OFFICIAL NOTICE OF LIABILITY FOR CRIMES AGAINST HUMANITY**

## **YOU HAVE BEEN SERVED FOR NOT ADHERING TO THE NUREMBERG CODE**

You will be named as an accomplice to crimes against humanity for:

- promoting a manufactured pandemic
- promoting experimental injections without providing full and transparent informed consent
- depriving people of their innate right to choose what goes into their body without fear of reprisals or repercussions
- prohibiting the truth from surfacing,  
and for
- essentially contravening the Nuremberg Code, which supersedes national Constitutions

The penalty for crimes against humanity is death or imprisonment. You will be summoned to a tribunal, as and when tribunals will be convened virtually or in a court room, and you could also be tried in absentia.

---

**This excerpt was published in the New England Journal of Medicine in 1997. It is a speech given by Dr. Evelyn Shuster to commemorate the 50th anniversary of the Nuremberg Code.**

“1. The voluntary consent of the human subject is absolutely essential.

This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs or engages in the experiment. It is a personal duty and responsibility which may not be

delegated to another with impunity.

2. The experiment should be such as to yield fruitful results for the good of society, unprocurable by other methods or means of study, and not random and unnecessary in nature.
3. The experiment should be so designed and based on the results of animal experimentation and a knowledge of the natural history of the disease or other problem under study that the anticipated results will justify the performance of the experiment.
4. The experiment should be so conducted as to avoid all unnecessary physical and mental suffering and injury.
5. No experiment should be conducted where there is an a priori reason to believe that death or disabling injury will occur; except, perhaps, in those experiments where the experimental physicians also serve as subjects.
6. The degree of risk to be taken should never exceed that determined by the humanitarian importance of the problem to be solved by the experiment.
7. Proper preparations should be made and adequate facilities provided to protect the experimental subject against even remote possibilities of injury, disability, or death.
8. The experiment should be conducted only by scientifically qualified persons. The highest degree of skill and care should be required through all stages of the experiment of those who conduct or engage in the experiment.
9. During the course of the experiment the human subject should be at liberty to bring the experiment to an end if he has reached the physical or mental state where continuation of the experiment seems to him to be impossible.
10. During the course of the experiment the scientist in charge must be prepared to terminate the experiment at any stage, if he has probable cause to believe, in the exercise of the good faith, superior skill, and careful judgment required of him, that a continuation of the experiment is likely to result in injury, disability, or death to the experimental subject.

The Nuremberg Code is the most important document in the history of the ethics of medical research. The Code was formulated in August 1947, in Nuremberg, Germany.”

~ Dr. Evelyne Shuster Ph. D.

## **Ignorance of the Law is no Excuse**

Failure to inform of the risks and dangers of a medical intervention, of the status of clinical trials or of animal studies (or the lack thereof), of the relative number of injuries and deaths, of the contrived Covid death counts and flawed PCR tests, and the documented survival rate or case fatality rate constitutes a crime against humanity. The Nuremberg trials convicted to death the Propagandists and doctors who experimented on uninformed and coerced persons.

People being injected with the mRNA serums (injections) misclassified as "vaccines" have not been informed that:

1. successful animal studies are not mentioned by Pfizer or Moderna
2. mRNA animal studies in 2005 failed, as the animals died
3. there has not been a safe vaccine for coronaviruses ever developed
4. humans are the guinea pigs in these clinical trials that end in October 2022 for Moderna and May 2023 for Pfizer
5. pregnant and lactating women were to be categorically excluded from the Pfizer & Moderna clinical trials, according to the Clinical Trial Synopsis; yet, they are being encouraged to get injected
6. shedding can occur by the injected, according to Pfizer documents and FDA advisories
7. more deaths by Pfizer & Moderna injections have been reported in the first six months of 2021 by a factor of 30, than the combined number of vaccine deaths from 1990 to 2020
8. the 'fully vaccinated' are considered 'unvaccinated' for the first 14 days following their last injection – the period when severe adverse events and death can occur
9. one natural immunity is weakened by a factor of 5 to 6 following vaccination
10. 'fully vaccinated' now entails taking booster shots
11. mRNA gene/information therapeutics can alter one's DNA
12. fetal cell lines were used to develop the mRNA injections
13. mRNA injections signal the body to generate the Spike Protein, and are, therefore, pathogen generators
14. mRNA injections create variants in the vaccinated
15. variants are invariably attenuated but more transmittable versions of the original virus
16. the Spike Protein (the pathogen) travels from the injection site of the arm to accumulate in various organs
17. Antibody Dependent Enhancement, plus twenty other adverse events, can accompany a Covid19 mRNA injection. These events are documented in an FDA meeting of October 2020.
18. healthy lifestyles can strengthen one's immune system
19. mRNA injections supposedly only lessen the severity of the illness and don't prevent infection or contamination, and are, therefore, therapeutics
20. herd immunity is not solely a function of vaccination
21. isolation and lockdowns of the asymptomatic destroy herd immunity
22. asymptomatic spread of a disease is false science
23. the survival rate for Covid is 99.9%, similar to the survival rate for influenza, and influenza can produce even more severe symptoms than Covid
24. annual flu statistics have been replaced by Covid data, and 96% of Covid deaths had preexisting conditions

25. the weekly number of deaths from 2019 going into 2020 remained constant
26. the SARS-CoV-2 virus has yet to be isolated after more than 120 Freedom of Information requests
27. the unscientific misclassification of active cases
28. double-standard mask mandates for the elite and their peons
29. quarantining asymptomatic people
30. nasal swabs contaminated with Ethelyn Oxide
31. Bill Gates predicted the world population could decrease by 10%-15% with the right vaccines
32. Covid-19 is part of the Great Reset, according to the World Economic Forum

Combined with:

33. lockdowns resulting in lost opportunities
34. forced 'vaccinations' at penalty of forfeiting one's job or one's education, when never in the history of medicine such measures were implemented for Influenza or other communicable diseases, such as AIDS or HIV
35. the assignment of media to control the narrative, as documented in a WHO meeting
36. the censoring of doctors warning of the dangers
37. the prohibition of proven therapeutics in proper doses so that experimental vaccines could be distributed under Emergency Use Authorization
38. flawed PCR tests that deliver 95% false positives

Your failure to inform people of all these facts, while 'vaccine' package inserts in pharmacies are intentionally left blank, and people are cajoled, coerced, bribed, and penalized in order to give you their consent to be injected by deadly experimental poisons that bear no resemblance to a vaccine amounts to a crime against humanity the scope of which the world has never seen before.

To add insult to our intelligence, you want the protected now to be protected from the unprotected by forcing the unprotected to use the same protection that didn't protect the protected.
